**T**ERRY MURPHY AND I have spent almost 30 years interviewing people who knew Audie, seeking out official documents, collecting newspaper and magazine stories about Audie Murphy. In 1996 we formed the AUDIE MURPHY RESEARCH FOUNDATION because the job was just too big to do ourselves. Probably the biggest boost to our efforts was when Richard Rodgers volunteered to create and maintain [audiemurphy.com](http://audiemurphy.com). Through this website we have been able to reach thousands of people who wanted to learn about Audie, hundreds who sent important information and artifacts and many dedicated people who volunteered their time and effort doing research. We did not have the personal finances to cover the expenses involved with this huge effort, but hundreds of caring individuals have sent contributions which have kept us going.

Terry and I decided the focus of this first book should be on Audie Murphy's law enforcement work. It was a huge part of his life and is something very few people know about. Because of this work, he had to associate with shady characters. As a consequence, his reputation suffered.

Worse yet, some writers, without access to the facts, reported the little they picked up in a way to make Audie look like a man with emotional problems who

was prone to walk on the wrong side of the law. Nothing could be farther from the truth. It was a huge disservice to Audie's memory.

Terry Murphy was very close to his dad. He always wanted to write this book. But, even after all these years, the pain of losing the most important person in his life proved too much. Finally, he realized that if we were going to set the record straight, I was the one who had to write the book.

I am pleased to be able to pay this tribute to Audie Murphy.
